WE ARE BUILD
YOUR FUTURE

Our team

Our well-trained team is present in many countries in Europe, such as the United Kingdom, Sweden, Germany, and Hungary.

The safety and living conditions of our employees are important to us. We do everything we can to improve workplace safety and to develop the knowledge and skills of our employees. We pay special attention to providing comfortable accommodation for employees to compensate for their absence from family..

Our services

Construction and installation of building finishes. Installation of metal and glass walls. Tasks related to high-rise construction. Implementation of special construction requirements.

We are specialists in the following areas:

CW (curtain wall), doors, windows and more, cladding (include stone cladding), rain sreen, green wall, terrecotta, brick slippis, feature pressings, met sec, cement board, GRC pannels loower and mesch integration, installation, preparation.

Our team is here to assist you in the successful implementation of your plans so that they are completed on time and with the desired quality in the future.

WE ARE BUILD
YOUR FUTURE

An aerial photograph showing the construction of a large, modern hospital building. The building has a complex, multi-winged design with a flat roof. To the right of the building is a large, paved parking lot filled with many cars. In the background, there are other industrial or commercial buildings, including one with a large 'AEKO' sign. The surrounding area includes roads and some greenery.

Milton Keynes
Hospital

A close-up photograph of a building's exterior wall during construction. The wall is covered in large, rectangular panels of purple insulation material. Several rectangular window openings are visible, some with black frames. A yellow construction crane is positioned next to the building, and a dirt road or construction path runs alongside it.
